institutions in the  
country to be an  
Institute of Technology

**The**  
**Largest**

Apprenticeship provider  
in west London

# Employer-led Education

---

## West London Institute of Technology

We are proud to be part of the national network of 12 prestigious Institutes of Technology (IoT) offering high-quality part-time and full-time qualifications including HNCs & HNDs, training and apprenticeships in higher level technical skills within the Engineering, Digital and Construction sectors. The IoT is a unique collaboration between training providers and industry leading employers to bridge the vital higher-level skills gaps in the UK economy through a range of delivery modes. Visit [www.westlondoniot.ac.uk](http://www.westlondoniot.ac.uk) for more information. Please call **01895 853780**, to find out how you can benefit from this fantastic network of collaboration.

## T Level Qualifications

We were the only FE College in London to deliver two T Level qualifications in the Digital sector: Digital production, design and development and the Education and Childcare sector: Education. T Levels are 2-year courses equivalent to three A Levels and feature a mix of classroom learning and 'on-the-job' experience through an industry placement of at least 45 days. They have been developed in collaboration with the employers to ensure that the content meets the needs of industry and provides students with the knowledge and experience needed to open the door into skilled employment, further study or a higher apprenticeship. To get involved in these exciting qualifications and supporting students with an industry placement, please call **01895 853780**.

## Apprenticeships

Train or hire the right people for the right roles and keep your business ahead. Through top-quality apprenticeships we help businesses of all sizes to maximise and shape their workforce with specialist skills to boost productivity. Working in over 26 industries, we help you to create the right recruitment and development programme for your business through HCUC. Get started here: [www.hcuc.ac.uk/employers](http://www.hcuc.ac.uk/employers).

## Work Placements & Traineeships

Work placements and traineeships are short-term opportunities for students & job seekers to work with your business. The individual works on business activities that you assign and are agreed with us. You do not have to pay a wage but you may want to contribute to their travel expenses.

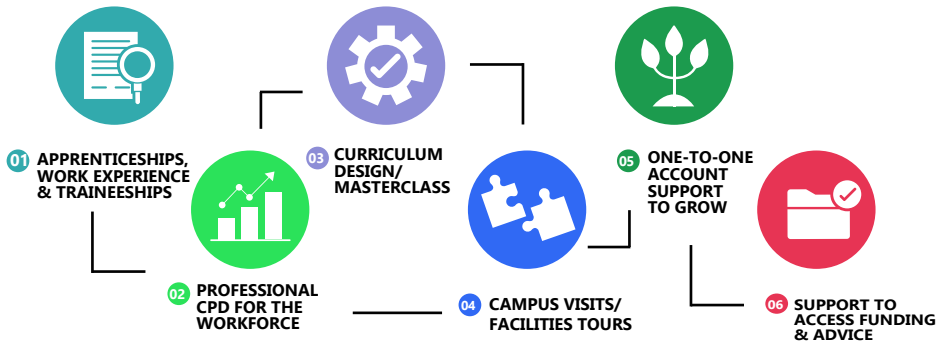

## Training & Courses

Our handpicked expert-led training courses and certifications always focus on the largest and the fastest growth areas that are high in demand in business. We offer specialist programmes based on professional and technical knowledge to bridge the skills gaps that exist in many industries. Your staff will enjoy a modern learning experience and apply at their workplace. Find out more information on how to get started: [www.hcuc.ac.uk/employers](http://www.hcuc.ac.uk/employers).

# College Business Centre

The College Business Centre (CBC) will support local businesses to increase their levels of innovation and productivity by meeting and driving demand for technical skills. The CBC technical delivery teams will support employers to understand how investment in skills, new technology and innovative practices will in turn drive increased productivity; and nurture the development of entrepreneurial and intrapreneurial talent. It will harness business intelligence to improve technical education provision, not exclusively but specifically for the T Levels, Higher Apprenticeships, and full time HE students, which will enable these learners to develop skills that employers need leading to rewarding work.

## Working in Partnership
